Course Overview

Search Engine Optimisation (SEO) is the process of optimising a website to rank highly on search engine results pages for highly targeted keywords.

Organic search is considered one of the most effective digital marketing channels when it comes to converting qualified prospects into paying customers.

So, how do you tap into this lucrative channel?

This intensive Search Engine Optimisation (SEO) certification training course covers the most up-to-date SEO marketing strategies and how to implement them to your existing businesses, enabling you to become a certified SEO strategist.

Trainees will participate in live exercises, group discussions, role-playing, Q&A sessions, and undertake interactive quizzes, in order to better facilitate their learning.

By the end of the course, participants will take away actionable SEO strategies that will enable them to manage their own SEO campaigns, manage any third-party SEO vendors, and oversee SEO campaigns as an SEO head.

To better facilitate the learning, each course participant will be provided with a demo website for practical exercises while they also have the option to work on their own website.

Target Audience

Marketing professionals, Web developers, Content developers, and Marketing managers who are required to understand how search engines work in order to manage SEO campaigns and oversee SEO vendors, as well as how to develop/optimize content and webpages to increase search rankings.

- 01. Marketing Professionals:** Enhance their understanding of search engine algorithms, keyword strategies, and analytics to manage effective SEO campaigns and collaborate seamlessly with SEO vendors for better results.
- 02. Web Developers:** Learn to optimize website structure, improve load speeds, and implement technical SEO best practices to boost search engine rankings and overall site performance.
- 03. Content Developers:** Gain insights into creating high-quality, SEO-friendly content that improves search visibility, engages audiences, and drives organic traffic.
- 04. Marketing Managers:** Acquire comprehensive skills to oversee and coordinate SEO efforts, ensuring they align with overall marketing strategies and business objectives, and effectively manage SEO vendors for optimal outcomes
- 05. Marketing Professionals:** Individuals who need to understand search engine mechanics to effectively manage and strategize SEO campaigns.
- 06. Web Developers:** Professionals responsible for the technical aspects of websites, including site structure and coding, crucial for SEO optimization.

These groups will benefit from the comprehensive coverage of Search Engine Optimisation (SEO) tools, and best practices offered by the course, ensuring they are well-equipped to apply these skills in real-world scenarios.

Course Highlights

In this Search Engine Optimisation Course, trainees will learn

- The latest Google algorithm updates and the impact on your website rankings
- What to include on any webpage to hit the 1st page of Google (complete with infographics)
- How to beat the competition when it comes to keyword research
- How to earn high quality editorial backlinks with a few simple techniques (completely white-hat)
- Important on-page and off-page ranking factors every marketer needs to know to stay on top of Google, including AI integrated SEO strategies
- How to create keyword ranking reports, track and measure return on investment on SEO activities, and make strategic improvements (SEO analytics)
- How to manage SEO campaigns in-house or through an SEO agency
- And much more

Course Objectives

By the end of the class, trainees will:

- Assess advantages, and disadvantages of SEO and SEM and propose suitable search marketing tools and SEO activities to address marketing objectives and target customers
- Conduct extensive keyword research to curate relevant content to reinforce the organisation's competitive advantage, key messages and brand, and implement on-page SEO to increase organic search engine rankings
- Develop content marketing and link building plan to rank various types of content on the organic search engine results pages
- Measure and analyse the effectiveness of SEO campaigns and determine factors that can improve keyword rankings and SEO-related KPIs and metrics

Testimonials

”

It had been supremely useful after attending this SEO course, and I was able to help my organisation troubleshoot and bring up the organic search traffic the past few months. The presentation materials were comprehensive and well organised – truly informative and an enriching experience.

Adeline Ng,
Singapore Press Holdings

”

This SEO course has been extremely useful to me as it is of direct relevance and applicability to my work. I would strongly recommend those who are managing digital marketing campaigns, be it by themselves or through a 3rd party to attend this course.

Lynne Loh,
Fuji Xerox

”

SEO is a subject that is technical and dry, but not Mr. Kevin Dam's SEO training class. He did not use very technical terms to ensure that my non-technical course mates were able to understand as well. He uses illustrations and examples to help us in our understanding. He also repeats key concepts to ensure we register them into our muscle memory.

Chia Teck Hwee, AT&T

”

The SEO course materials was comprehensive and very useful. The 2 days course provided great insights and understanding of how SEO works – its implications and strategies. This course was helpful and Kevin was a great trainer who is a very knowledgeable expert that took time to slowly & thoroughly explain concepts, strategy and SEO tools to use

Joy Koh, Singapore
Turf Club

”

Enrolling in this SEO course from Equinet Academy was a game-changer for me. The instructor-led sessions were incredibly informative and practical, providing clear insights into tracking keyword rankings and using Google Search Console effectively.

Ravi Tan

Frequently Asked Questions

What is the difference between this course and the Advanced SEO course?

The basic SEO course covers the fundamental concepts of search engine optimisation and how to rank a website on the first page of Google. The [Advanced SEO Course](#) goes into more detail covering more advanced concepts of search engine optimisation such as managing day-to-day SEO operations. You may go through and review both course outlines in detail and contact us should you have any specific questions on this.

Are there any pre-requisites or minimum entry requirements?

Trainees should be proficient in web surfing and be able to write and converse in English.

Do I have to prepare anything before attending the course?

For in-person training, do bring along a laptop. You also have the option to loan a laptop from us for the duration of the course. You may also want to bring along a jacket in case the room gets cold.

For online classes, do ensure you have a functional laptop and have Zoom installed prior to class. For more details, you may read the [Online-based Classroom Learner Guide](#).

As there will be WSQ assessments conducted in this course, you are required to bring along your NRIC or any form of photo identification for ID verification purposes.

If I have any questions after the course, can I consult the trainer?

Yes, you may contact your trainer after the course. There are other [post-training support channels](#) such as the Equinet Academy Insider Community where you may network with like-minded individuals and industry experts and live Post-Training Mentoring sessions where you may seek advice from a subject matter expert.
